

# Natural Reverse™

*The  
Osteoarthritis  
Answer*

**Finally, there is good news for arthritis sufferers: an important breakthrough has enabled medical researchers to uncover what may be the most important advance ever made in natural remedies for debilitating arthritis**

Researchers have found a way to combine four of the most potent, most effective arthritis therapies into one safe, effective, all-natural remedy. Never before has one therapy offered such hope for complete relief from the pain, inflammation, stiffness, and limiting effects of this devastating disease.

The scientists who uncovered this revolutionary new formula have named their product **Natural Reverse**. This groundbreaking therapy does just that: erases all symptoms of arthritis, repairs joint and cartilage damage, and rebuilds your health. This innovative formula could be the most important discovery in the history of arthritis and its treatment. But even more

important: *it can change your life, restore your health, and give you back the ability and energy your active lifestyle requires.*

## The Arthritis Epidemic

If you've reached middle age, chances are, arthritis has already begun to affect your life – even if you haven't yet felt its painful effects.

Doctors now believe that arthritis begins its destructive work on your body as early as your 30s, and even your 20s – sometimes even younger. However, most people don't begin to notice the tell-tale pain or stiffness until their 40s or 50s. By then, the damage has been done.

Arthritis has reached an epidemic stage, made worse in modern America with a population that is heavier than ever, and prone to putting extra stress on joints through activities such as jogging, tennis, soccer, and other high impact sports. Right now, doctors estimate that over 20 million Americans suffer with symptoms of arthritis. Over the next decade, that number is expected to double. The bottom line is that today, one third of all American adults suffer with some type of arthritis or joint disease.

The ramifications are staggering, but there is good news. . .

## Nature's Arthritis Arsenal

Researchers have long known about the important, healing effects of four important natural ingredients: Cat's Claw, Glucosamine, Myristol, and Calcium. On

their own, each of these four components is an important tool in the fight against arthritis and its debilitating effects. Each of these four substances has crucial properties that make it an effective therapy for the pain, discomfort, and ultimately, the life-altering effects of this degenerative disease.

However, only now have researchers uncovered a way to make these four important components work in tandem to create what promises to be ***the most effective arthritis remedy ever formulated.***

Not only does this amazing, all-natural therapy erase the pain, inflammation, and incapacitating effects of arthritis, but it actually works to repair and reverse its debilitating effects. What's more, the active ingredients in this therapy actually work to strengthen the body's own natural anti-arthritis properties, protecting and preventing you or your loved ones from ever experiencing the devastating effects of arthritis in the first place.

To fully understand the incredible healing effects of this remarkable therapy, let's take a look at the four important ingredients working together to form this arthritis "silver bullet":

## Cat's Claw

Indigenous to the Amazon rainforests of South America, Cat's Claw (or *una de gato* to the Spanish) has been used for centuries by native peoples as a cure-all for a wide variety of chronic and acute illnesses. Native Indians used this remarkable botanical plant as an effective treatment for everything from intestinal disorders, wounds, fevers and ulcers to cancer, diabetes, asthma, and yes – arthritis.

The most meaningful study yet performed on cat's claw suggests that it might be helpful for Osteoarthritis condition. A four week, double-blind, placebo-controlled trial evaluated the potential benefits of cat's claw for Osteoarthritis. A total of 45 individuals with Osteoarthritis were enrolled. Of these, 30 were put on cat's claw, and 15 were given placebo. Individuals in the cat's claw group showed reduced pain with activity as compared to those in the placebo group.

Called one of the most important herbs found in the rainforest, Cat's Claw has been the subject of wide research since the 1970's. However, its widespread use did not begin until the 1990's, when researchers began studying it as a possible treatment for HIV and AIDS.

***What makes Cat's Claw***

***such an important and remarkable natural remedy is its foundational ability to strengthen and enhance the body's natural immunity system.*** It has also been found to reinforce the body's cardiovascular and intestinal systems.

By working to strengthen the body's own natural defenses, this remarkable herb has found widespread effectiveness against a wide variety of ailments. Recent research has shown it to be an effective weapon against allergies, acne, arthritis, chronic fatigue, fibromyalgia, menstrual disorders, hormonal imbalances, upper respiratory ailments, viral infections, and even depression. Further research has shown effectiveness against bowel and intestinal complaints including diverticulitis, irritable bowel syndrome, and Crohn's disease. The list goes on and on.

What's more, research has even revealed that the active ingredients in Cat's Claw has an anti-hypertensive quality that may be useful in warding off strokes and heart attacks by reducing blood pressure and working to decrease cholesterol.

While modern medicine continues to search for a "Miracle Drug" to enhance health, it looks like nature may have had its own all along!

## Myristol

Myristol is an effective and all natural dietary supplement developed by researchers for the permanent relief of the pain and inflammation of arthritic symptoms. More importantly, ***Myristol actually works to reverse the debilitating effects of arthritis.***

The active ingredient in Myristol is Cetyl Myristoleate. This amazing substance is a molecule first isolated in Swiss Albino Mice. Because it is a naturally occurring substance, pharmaceutical companies cannot patent the ingredient – thus, upon its discovery in 1962, no one was interested in bringing this effective therapy to market!

In 1994, the first reports of the effectiveness of this then-little known therapy were published in a handful of leading medical journals. Since that time, hundreds of natural health practitioners have discovered the amazing therapeutic effects of this remarkable dietary supplement. Now, thousands of arthritis pain sufferers have experienced complete pain relief and the complete reversal of symptoms that Cetyl Myristoleate can provide.

## Glucosamine

Glucosamine is the all-natural, 100% safe and effective formula that has been clinically proven to help improve, and even completely eliminate, the degenerative symptoms of arthritis and joint pain.

What makes Glucosamine really remarkable is that it doesn't just "mask" the pain and inflammation of arthritis . . . it actually works to improve the condition of your joint cartilage – the natural shock-absorbing material between your bones.

As researchers now understand, arthritis is caused by the wearing and tearing on the cartilage that comprises the "cushion" between our bones and our joints. Over time, cartilage begins to break down, causing friction between our bones. This causes pain, disintegration of the joints, inflammation, stiffness, and eventually debilitating deformities that limit normal motion and disrupt lives.

***Cartilage is where arthritis begins – and where Glucosamine does its most important work.***

Glucosamine actually works to repair, rebuild, and restore the cartilage between your joints. Glucosamine is a naturally occurring sugar produced by the body. This

important element helps to stimulate the production of glycosaminoglycans and proteoglycans, two essential elements in the production, maintenance and repair of cartilage. By supplementing your body's own natural production, the glucosamine formula works as a "booster" agent to increase your body's own natural production of this essential element.

And what could be an even more important benefit: Glucosamine actually works to ***prevent cartilage damage before it happens.*** Glucosamine works to bind water into the body's cartilage system. This effect works to increase collagen and normalize cartilage to keep it healthy and strong, and resistant to degeneration.

## Calcium

Finally, formulators of Natural Reverse have included the building block for strong bones and strong bodies: calcium. As scientists studying the effects of arthritis discovered, cartilage is the beginning of arthritis, but is by no means the entire story. Arthritis stems from a breakdown in cartilage, but also in everything that

*(continued...)*

surrounds it – muscles, bones, tendons, and ligaments. Building healthy cartilage means ensuring healthy bones and muscles as well.

But Natural Reverse doesn't contain just a simple calcium component. Researchers utilized the latest research and healing properties of the remarkable all-natural therapy found in Osteorganical to help build the arthritis-fighting features of this amazing new therapy.

Osteorganical is a cutting edge, all-natural, clinically-proven therapy proven to **halt bone loss** and **significantly increase bone mass**. Its unique formula utilizes the unique properties of a particular form of sea algae that actually rebuilds bone mass. Using bone densitometry tests, it is proven to be much more effective than mainstream drugs and synthetic hormone therapies. What's more, its all-natural therapy helps eliminate the unnecessary and often harmful side-effects of these mainstream drugs.

***By combining the essential elements that make Osteorganical such an effective agent against osteoporosis, with the other arthritis-fighting properties of Natural Reverse, researchers have formulated an all-natural therapy that is remarkably effective.*** This unique formula will work to

build a strong bone and cartilage framework to help your body support the active lifestyle you desire.

## **Natural Reverse: The Permanent Answer to Arthritis Pain and Problems**

Simply put, Natural Reverse can change your life. Imagine reversing the clock, reversing the damage that years of arthritis pain have caused. Imagine restoring your body's health and vigor, recapturing the range of movement and freedom from pain and swelling that you once took for granted. Imagine feeling like your old self again. The good news is, you can – starting right now.

Natural Reverse is now available from Natural Option Corporation, a leading supplier of revolutionary, all-natural therapies. Natural Reverse is available in a convenient 10-day supply for just \$39.95 plus shipping and handling. For optimum effectiveness and value, I recommend the 30-day supply for just \$89.85 – already great savings, plus, we'll pay the shipping and handling, making your total savings over 33%. To begin rebuilding your strong body and restoring your health, you need only begin by ordering

your own personal supply of this ground-breaking formula. Natural Option Corporation has made ordering fast and easy: If ordering by credit card, simply call toll-free (800) 516-9796, or if you prefer, simply fax your order to (800) 725-8370. You can also mail your order, along with check or money order to Natural Option Corporation, 2828 Coral Way, Suite 206, Coral Gables, FL, 33145. However you choose to order, Natural Option will mail out your order of Natural Reverse immediately. And as usual, you'll enjoy Natural Option's no questions asked, 100% iron-clad guarantee: If you're not completely satisfied with Natural Reverse, simply return the unused portion within 30 days, and your money will be fully refunded. It's that simple, because we're so sure that Natural Reverse will be the most effective arthritis treatment you've ever tried – period.

I urge you to order now. One more day of needless pain is one day too many to suffer the painful and debilitating effects of arthritis.

**[You've got too much living to do to let arthritis pain slow you down – call now.](#)**
