

Glucosamine & Chondroitin + MSM

The ALL-Natural Way

Eliminate the aches and discomfort of joint pain forever and reclaim your active lifestyle — starting today!

Imagine living life like you did ten, twenty, even thirty years ago – before the stiffness and discomfort of joint pain made even the simplest tasks difficult and often painful. Imagine forever ridding your body of the decreased mobility and pain brought on by osteoarthritis, rheumatoid arthritis, spinal disk degeneration, tendonitis, bursitis, and physical injuries to the joint.

The good news is – you can!

Once again you can reclaim an active lifestyle, enjoying the many activities that you once enjoyed. You can return your hands, wrists, hips, knees, feet and other important joints to a normal, healthy state. With this scientifically tested, all-natural formula, you can eliminate the ache and stiffness of joint pain and arthritis, even if you have suffered with it for many years.

Glucosamine & Chondroitin + MSM is the all-natural, 100% safe and effective formula that

has been clinically proven to help improve, and even completely eliminate the degenerative symptoms of arthritis and joint

pain. What's more, this special formula has even been proven to be more effective than prescription painkillers.

Here's what makes Glucosamine & Chondroitin + MSM really remarkable: This amazing formula doesn't just "mask" the pain of arthritis and other diseases, as do many painkillers and analgesics, it actually improves the condition of your joint cartilage – the natural shock-absorbing material between your bones.

Glucosamine & Chondroitin + MSM actually works to repair, rebuild and restore the cartilage between your joints. This simple, all-natural formula can give you back the mobility and vitality you once enjoyed, and rid your body of the pain and physically devastating effects of arthritis. The best part is, Glucosamine & Chondroitin + MSM helps your body heal itself – actually improving and reversing degenerative effects of joint pain.

This amazing formula has worked for millions of Americans suffering with these destructive

diseases – and now it can work for you.

Healing Your Body – Ending the Pain

Q: What causes joint pain and arthritis?

Cartilage is the white, smooth, rubbery substance that covers and protects the joints between your bones. Your cartilage is made up principally of protein, water, and a reinforced gel composed of proteoglycans woven through the collagen fibers of your joint. Because your joints have no blood vessel network, they depend on the naturally-occurring fluids to bring nourishment and repair to the joint area.

The soreness and stiffness of arthritis and other joint pains is caused when the natural cartilage between your joints is worn down and degenerates. The damage happens over many years, wearing down the natural cushion of cartilage through repeated stress to the joints. When your joints experience repeated stress, there can be a buildup of damage that needs repair. Because your joints are used frequently, there is rarely time for this repair to properly take place. What's more, poor diet, infection, and inflammation trigger enzymes that further break down cartilage, causing further damage to the critical joint area.

Once critical cartilage is lost, the joints become swollen, stiff, inflamed, tender, and painful. Without intervention, this agonizing situation will only

worsen, causing increasing pain and difficulty in movement and mobility.

Q: How does Glucosamine & Chondroitin + MSM work?

Glucosamine is a naturally occurring sugar produced by the body. This important element helps to stimulate the production of glycosaminoglycans and proteoglycans, two essential elements in the production, maintenance and repair of cartilage. By supplementing your body's own natural production, the glucosamine formula works as a "booster" agent to bolster your body's own natural production of this essential element.

What's more, glucosamine actually helps prevent cartilage damage before it happens. Glucosamine works to help bind water into the body's cartilage. It works to increase collagen and normalize cartilage to keep it from breaking down in the first place.

Chondroitin is also important to the effectiveness of this formula. This naturally occurring sugar is essential to the process of cartilage growth and repair. As we age, our body's produce less and less of this important element. By supplementing our body's own natural production, you speed up your body's natural ability to build and repair essential cartilage tissue.

What's more, this amazing new formula also contains a critical new component that plays an important role in the rebuilding

of essential cartilage: Methylsulfonylmethane – or MSM. Although most people are unaware, sulfur is considered one of the basic elements of life, and is a key component in building a healthy body. It is found in every human cell, and is structurally vital to the development of hormones, enzymes, antibodies, and antioxidants. What's more, it is crucial for maintaining cell flexibility, ensures the health of connective tissue, and the formation of collagen. MSM provides this essential sulfur, and further enhances the effectiveness of the Glucosamine & Chondroitin + MSM formula. Many healthy professionals recommend MSM for its ability to relieve pain and promote wellness. MSM allows many arthritis sufferers to live pain-free for the first time in years. In short, it is a critical component in maintaining flexibility and strong cartilage.

Q: How does Glucosamine & Chondroitin + MSM Actually Improve My Condition?

Other arthritis and joint pain formulas work simply by "masking" the pain associated with arthritis and other painful joint diseases. Glucosamine & Chondroitin + MSM actually works to correct the underlying problem, repairing cartilage damage and improving the range of motion of damaged joints. Glucosamine & Chondroitin + MSM doesn't simply hide your pain; it eliminates your pain – forever.

Q. How has Glucosamine & Chondroitin + MSM been proven effective?

In numerous clinical trials, Glucosamine & Chondroitin + MSM has been proven over and over to be effective in relieving pain and increasing the movement and mobility of patients affected by arthritis and other joint pain.

Tests after tests have shown that the Glucosamine & Chondroitin + MSM formula is more effective than ibuprofen, and even many prescription painkillers, at eliminating pain. Another important study carried out on patients with osteoarthritis showed a reduction in pain, and a marked improvement in just eight weeks of using the product.

Q. Has Glucosamine Chondroitin and MSM been used in other countries?

Europeans have been enjoying the healing, healthful effects of Glucosamine & Chondroitin + MSM for over twenty years. Up until recently in this country, use of this amazing formula has been largely limited to arthritic animals. However, with growing education and awareness of the success of clinical trials, usage of Glucosamine Chondroitin and MSM has become increasing popular as word of its amazing effectiveness has spread.

Q. Does Glucosamine & Chondroitin + MSM promote long-term healing?

Important clinical tests have also

revealed the long-term healing effects of continuous Glucosamine & Chondroitin + MSM use. Patients who started the formula and continued for a longer period of time showed continuing improvement over patients who took the supplement for a short term and stopped. Patients who stopped using the formula regressed, but not to the

previous level before taking any Glucosamine & Chondroitin + MSM.

Q: How long after I start taking Glucosamine & Chondroitin + MSM will it take to experience the healing effects?

Glucosamine & Chondroitin + MSM is not a “quick-fix” painkiller – it is an all-natural supplement that helps your body restore itself to a more healthful state. Even so, your body has an amazing ability to repair itself –

especially when it receives all the important elements it needs to build a strong, healthy body.

Some patients experience pain relief and increased mobility in just a matter of days after beginning the Glucosamine & Chondroitin + MSM supplement. In other cases, other patients may wait weeks to recognize a relief of symptoms. Either way, the earlier you start taking Glucosamine & Chondroitin + MSM, the sooner you too will experience the healing effects.

Q: What are others saying about Glucosamine & Chondroitin + MSM?

Glucosamine & Chondroitin + MSM has been receiving a lot of press attention as the effectiveness of this amazing formula becomes more widely known. The Arthritis Cure by Dr. Jason Theodosakis mentions this all-natural formula, as does several television news programs and articles in noted publications including *The New York Times*.

Q: How can I get started using Glucosamine & Chondroitin + MSM?

Natural Option Corporation, a leading supplier of natural health therapies, is making this remarkable healing formula available in an easy to obtain, efficient and low cost form. Their new product, Glucosamine & Chondroitin + MSM gives your
